

2.21 Online manual and help content

SEAMCAT provides a direct access to the online manual by clicking on the following symbol . Each panel contains a specific link where detailed information on the feature or algorithm can be found. In case of need for further information, clarification, or in order to supply additional information or improvements to the manual that could be useful for other users of SEAMCAT, please contact the ECO project manager at seamcat@eco.cept.org

Revision #1
