

Access to meetings for ETSI members

As per the MoU agreement between ECC and ETSI, full ETSI members are entitled to participate in relevant Project teams of the ECC Plenary and of the Working Groups of the ECC.

If the option to represent a Full ETSI Member is not available when registering to a meeting of a group, that group is not open to Full ETSI Members. Registration is however still possible according to the instructions provided [here](#).

The list of Full ETSI members on the CEPT portal is updated regular basis, therefore there can be slight misalignments compared to the actual ETSI Membership. If this latter case is of your concern, please write to helpdesk@eco.cept.org for assistance.

The current list of Full ETSI members on the CEPT portal includes:
