

Searching for data on ECO websites

The individual CEPT websites do not contain their own search engine for general content like documents and web articles. Use ecosia search engine to find information on our websites - using specific search parameters helps finding the exact information you need.

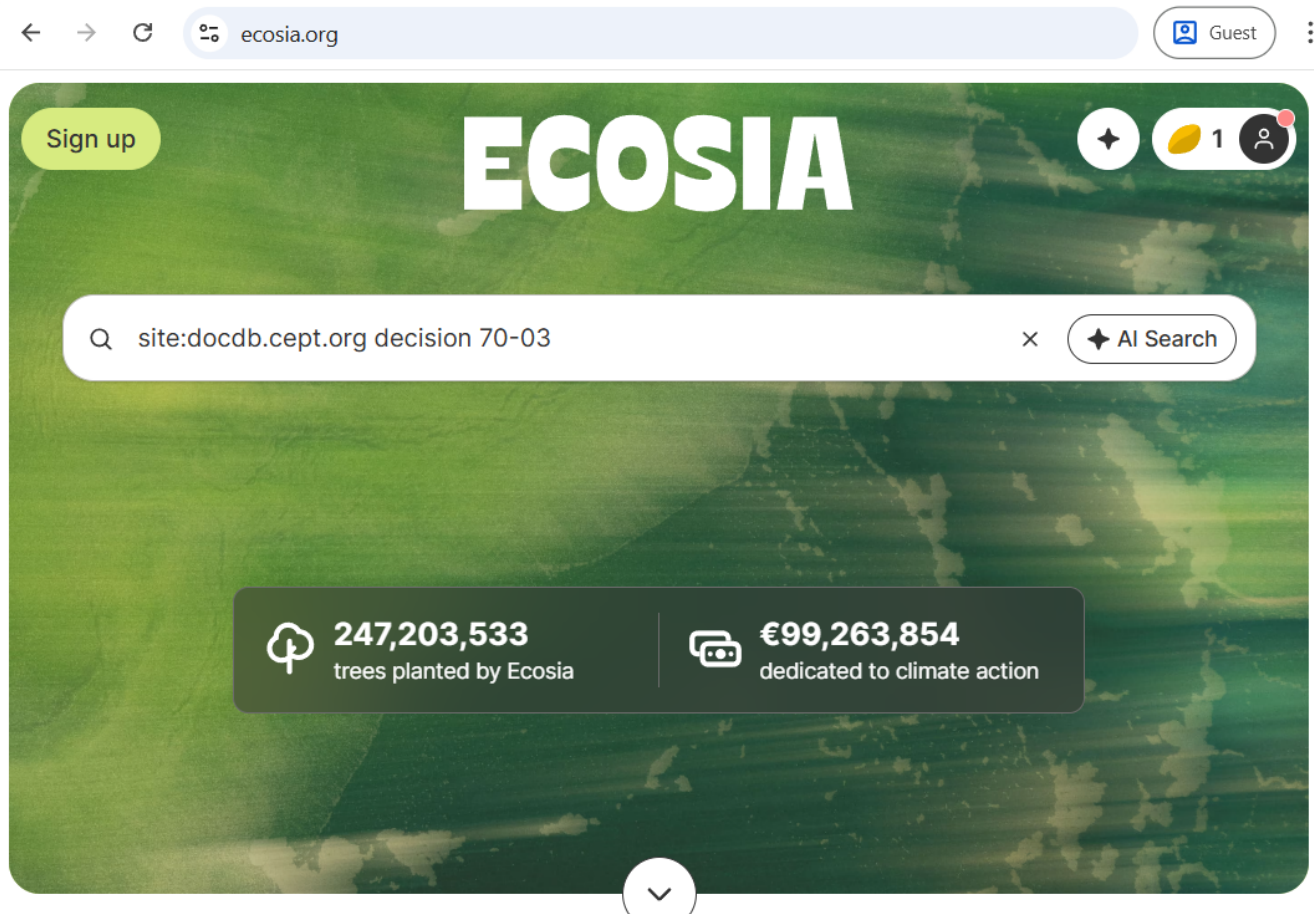

Examples:

Find info on decision 70-03 on all CEPT sites:

This will give you search results from DocDB, EFIS and [CEPT.org](https://www.cept.org)

If you only want to search the DocDB site change the query to:

Revision #4
